

MOSES AKWA

Data Scientist & Operations Professional

Lagos, Nigeria · Mosekakwajnr@gmail.com · linkedin.com/in/moses-akwa

◆ PROFESSIONAL SUMMARY

Results-driven Data Scientist and Operations Manager with 3+ years leveraging predictive modeling, machine learning, and data analytics to optimize heavy operations, supply chains, and resource allocation. Proven record of translating complex datasets into actionable strategies that lower costs, improve delivery schedules, and boost efficiency. Skilled in Python, SQL, statistical analysis, and cross-functional project leadership.

◆ PROFESSIONAL EXPERIENCE

Operations Manager, Waves Construction & Maintenance Ltd (Dredging & Construction) 2021 – Present | Lagos, Nigeria

- Directed daily site operations and heavy equipment utilization across active dredging and construction projects, increasing daily excavation volume by 15% and maintaining a 98% on-time milestone delivery rate.
- Enforced site safety and environmental compliance protocols, achieving 200+ consecutive days without a Lost Time Injury and zero regulatory citations.
- Optimized dredge slurry pipeline flow and equipment maintenance schedules, cutting unscheduled downtime by 25% and saving \$18,000+ in quarterly repair costs.
- Managed a crew of 15+ field technicians, equipment operators, and marine personnel, reducing procedural errors by 30% through daily training and toolbox talks.

Operations Coordinator (Part-time), Iyke Modest Nigeria Limited 04/2021 | Lagos, Nigeria

- Orchestrated monthly diesel delivery schedules across multiple sites (50,000+ liters/month), achieving 99% on-time delivery and reducing fuel shortages by 30%.
- Analyzed site-level diesel consumption vs. energy output data, identifying inefficiencies that cut energy costs by 15% across 3 key sites.
- Led a continuous improvement initiative that revised 10+ operational policies, reducing procedural errors by 40% and improving project delivery times by 20%.

Data Scientist Intern, Stutern 12/2020 – 03/2021 | Lagos, Nigeria

- Developed and deployed a predictive model in Python and Scikit-learn, improving forecast accuracy for key business metrics by 18%.
- Automated data quality checks and processing pipelines, reducing weekly processing time by 15 hours and ensuring 99.8% data reliability for executive reporting.
- Delivered quantitative analysis that identified a trend driving a 10% increase in user engagement for a pilot product feature.

Teacher, Computer Science & Mathematics, NYSC (National Youth Service Corps) 10/2015 – 10/2016 | Edo State, Nigeria

- Designed and delivered lesson plans for 80+ students using real-world, event-based teaching methods, raising average test scores by 22% and boosting engagement by 35%.
- Established classroom discipline measures that reduced disruptions by 60%, creating a more conducive learning environment.

◆ PROJECTS

Hotel Booking Demand Prediction (10/2020 – 11/2020)

- Built a classification model (Logistic Regression, Random Forest) predicting booking cancellations with 85% accuracy, surfacing insights to support dynamic pricing strategies with up to 12% revenue potential.

Lagos House Rent Prediction Model (11/2020 – 12/2020)

- Engineered a regression model ($R^2 = 0.89$) to predict Lagos rental prices and built an interactive dashboard to aid prospective tenants in budget planning.

◆ EDUCATION

B.Sc (Ed) in Computer Science — University of Port Harcourt, Port Harcourt, Nigeria (2009 – 2014)

Certificate in Data Science — Stutern Graduate Accelerator Program, Lagos, Nigeria (2020)

◆ SKILLS

Python (Pandas, NumPy, Scikit-learn) • SQL • Statistical Analysis • Predictive Modeling & Machine Learning • Feature Engineering • Data Wrangling & Visualization • Process Optimization • Strategic Planning • Logistics Coordination • Heavy Equipment & Fleet Management • Vendor & Stakeholder Management • Cross-Functional Collaboration

◆ TRAINING & CERTIFICATIONS

CompTIA N+ (Networking) • Ethical Hacking • Frontend Development • Website Design & Hosting • Project Management (Agile Foundations) • Cybersecurity

◆ ACCOMPLISHMENT & VOLUNTEERING

- Led the setup of a 50+ computer lab at Government Science and Technical College, Igarra, serving 200+ students annually for IT literacy and national exams.
- Provided academic and career counseling to secondary school students as an NYSC volunteer, driving a 15% increase in university applications across the cohort.
